REVIEW LESSON

MTA Course: Database Administration Fundamentals
Lesson name: Master Summary, Database Administration Fundamentals
Topic: Master Summary (One 50-minute class period)
File name: DBAdminFund_RL_6.1

**Lesson Objective:**

**6.1:** Review summary of the Database Administration Fundamentals review lessons.

## *Preparation Details*

**Prerequisite student experiences and knowledge**

This lesson is created as a master review. It contains a vocabulary review document and a practice test of 40 questions.

This MTA Certification Exam Review lesson is written for students who have learned about database administration. Students who do not have the prerequisite knowledge and experiences cited in the objective will find additional learning opportunities using resources such as those listed in the Microsoft® resources and Web links at the end of each review lesson in this collection.

**Instructor preparation activities**

Create copies of the vocabulary review, test, and test key.

**Resources, software, and additional files needed for this lesson:**

- DBAdminFund_SA_6.1.1 (vocabulary list)

- DBAdminFund_SA_6.1.2

- DBAdminFund_SA_6.1.2_Key

## *Teaching Guide*

### *Lesson sequence*

### Activating prior knowledge/lesson staging (5 minutes)

1. *Say:* The primary focus of this review is to wrap up the class with a study opportunity for you to prepare to take the MTA Certification Exam in Database Fundamentals. The vocabulary list and test answer key will provide opportunities for you to check your understanding of the key concepts of these lessons.

### Lesson activity (35 minutes)

1. Hand out Student Activity DBAdminFund_SA_6.1.

### Assessment/lesson reflection (10 minutes)

1. This lesson is a formal assessment. After the test, provide students with the answer key and the vocabulary list for their further study.
